

# PUAOPE018A CONTROL A LEVEL 2 INCIDENT

## COURSE OVERVIEW

This course comprises one nationally recognised unit of competency PUAOPE018A Control a Level 2 Incident designed to provide the knowledge and skills required to control a multi-team response to an incident, to undertake a scene assessment, and to plan and implement an operational response and post-response activities. Level 2 incidents are complex either in size, resources or risk. They are characterised by the need for deployment of resources beyond initial response, or sectorisation of the incident, or establishment of functional sections due to the levels of complexity (eg operations and planning) or a combination of the above.

The course has been developed for personnel required to:

- perform the role of an Incident Controller within an Incident Management Team or assist in a support capacity; and/or
- be informed of the Incident Management Team's underpinning principles and processes.

This is a nationally recognised course. The course is not fire-specific.
