

PUAOPE018 CONTROL A LEVEL 2 INCIDENT

COURSE OVERVIEW

This course comprises one nationally recognised unit of competency PUAOPE018 Control a Level 2 Incident designed to provide the knowledge and skills to manage all activities and personnel deployed to resolve Level 2 incidents through use of internal and external resources.

It includes establishing a control facility, developing and maintaining control structures, developing and maintaining coordination arrangements, assessing situation and determining priorities, providing public information, developing an incident action plan and complementary plans, maintaining control of incident, managing implementation of incident plans, concluding incident activities and reviewing incident activities.

Level 2 incidents are characterised by the need for deployment of resources beyond the initial response or sectorisation of the incident or the establishment of functional sections due to the levels of complexity or a combination of the above. The course has been developed for personnel required to:

- perform the role of an Incident Controller within an Incident Management Team or assist in a support capacity; and/or
- be informed of the Incident Management Team's underpinning principles and processes.

This is a nationally recognised course. The course is not fire-specific.
